SUMMARY

Community and program leader who starts communities where none exist and builds them to last. Nine years of community leadership across Nigeria and Kenya: a GDG chapter grown from 0 to 258 members, the first tech conference in Egbe (300+ attendees, international sponsors), and a student network onboarded across 24 campuses. Today I run a tech training hub where 23 of 24 fellows are now employed. I combine program operations, automation, and hands-on engineering (coding since 2009), and I hold an MBA in Marketing & Strategy. I lead with excellence, timeliness, and honesty.

PROGRAM LEADERSHIP

Program Manager, Brave Redemptive

June 2024 – Present

- Run day-to-day operations of a software and design training hub, executing the director's strategy and leading the facility manager
- Delivered a fellowship cohort of 24 selected from 400+ applicants (about 6% acceptance); 23 of 24 are now employed
- Delivered the Brave Fundamentals cohort: 25 graduates selected from 200+ applicants
- Built Google Sheets and AppScript automation for student success reporting, finance and expenses, assignment submission and grading, and form-calendar workflows
- Coordinated 30+ industry guest sessions and managed mentor and partner relationships
- Apply Agile practices to program workflows and track attendance, feedback, and performance

Program Designer, Prunater Developer Training Initiative

June 2022 – Nov 2022

- Designed a training program to help 1,000 beginners learn programming and build portfolio projects, including curriculum structure and mentor coordination

Digital Skills Trainer, Sanstonz

Nov 2019 – Nov 2022

- Trained 200+ individuals, businesses, and groups in digital marketing, social media, and content creation through workshops, webinars, and one-on-one coaching
- Mentored learners to earn Google's Digital Marketing Fundamentals certification under the Digital Skills for Africa project

COMMUNITY LEADERSHIP

Lead Organizer, Google Developer Group Egbe

Feb 2022 – Present

- Started the first and only GDG chapter in Egbe and grew it from 0 to 258 members
- Organized 23+ events: I/O Extended, Flutter Forward, DevFest, Cloud certification sessions, and Build with AI
- Secured event sponsorship and partnership from both local and international organizations

Founder, Binapti Technological Solutions

Oct 2017 – Present

- Hosted Binapti Conf, the first tech conference in Egbe (300+ attendees), and Binapti Explore, the town's first entrepreneur event
- Secured international sponsorship from VMware and Mullvad
- Run monthly meetups for developers, designers, and founders

Lead Organizer, Open Source Community Africa (OSCA) Egbe

Apr 2021 – Present

- Grew a local open-source community from 0 to 20+ contributors
- Created OpenCSH, a 3-month contribution and mentorship hackathon, and hosted the Open Source Roundtable

Community Lead, Data Scientists Network (DSN) Egbe

Sept 2022 – Present

- Co-organize data science and AI education campaigns, giving people without access a way into the field

Student Leader, Postman Student Community

June 2023 – June 2024

- Launched the #APILiteracyTour, onboarding student leaders across 24 campuses in Nigeria and Kenya who went on to run their own chapters; the network grew past 1,400 members

PRODUCTS & ENGINEERING

- **Three apps on Google Play** (RC Hymns, Anony.ng, Akosori), built with React Native, Expo, Firebase, and Supabase. RC Hymns has 5,000+ downloads. A fourth app launching soon.
- React Native contract engineer (Insync App, 2023); AI prototypes with the OpenAI API and LangChain

SPEAKING

TEDx Thomas Adewumi University (Nov 2023), “Unveiling the Economy of Studentship” · [Watch the talk](#)

DevFest Lokoja · DevFest Ogbomosho · DevFest Ilorin · DevFest Ikot-Ekpene

EDUCATION

MBA, Marketing & Strategy, Miva Open University, 2026 (CGPA 4.67/5, Distinction)

B.Sc. Computer Science, Ladoke Akintola University of Technology, 2024 (4.18/5, Second Class Upper)

National Diploma, Computer Science, Kwara State Polytechnic, 2016

SKILLS & CERTIFICATIONS

Community & programs: event management, partnerships and sponsorship, onboarding, Agile/Scrum, Trello, Discord, Slack, Google Workspace, AppScript automation

Certifications: Managing Developer Communities (C-School) · Driving Customer Success through Community (C-School) · Introduction to Agile (IBM) · Introduction to Product Management (Great Learning) · Digital Marketing Fundamentals (Google) · Associate AI Engineer for Developers (DataCamp)
