SUMMARY

Developer advocate who builds developer communities from zero and ships the apps to prove the tools work. Coding since 2009, professional since 2016, and leading tech communities since 2017 across Nigeria and Kenya. Started the first GDG chapter in Egbe (0 to 258 members, 23+ events), hosted the first tech conference in Egbe (300+ attendees, international sponsors), and published three React Native apps on Google Play. TEDx and DevFest speaker. I turn technical products into events, content, and communities that developers adopt.

COMMUNITY & ADVOCACY EXPERIENCE

Lead Organizer, Google Developer Group Egbe

Feb 2022 – Present

- Started the first and only GDG chapter in Egbe and grew it from 0 to 258 members
- Organized 23+ events: I/O Extended, Flutter Forward, DevFest, Cloud certification sessions, and Build with AI
- Secured event sponsorship and a partnership with both local and international organizations.

Founder, Binapti Technological Solutions

Oct 2017 – Present

- Hosted Binapti Conf, the first tech conference in Egbe (300+ attendees), and Binapti Explore, the town's first entrepreneur event
- Secured international sponsorship from VMware and Mullvad
- Run monthly meetups for developers, designers, and founders

Lead Organizer, Open Source Community Africa (OSCA) Egbe

Apr 2021 – Present

- Grew a local open-source community from 0 to 20+ active contributors
- Created OpenCSH, a 3-month contribution and mentorship hackathon, and hosted the Open Source Roundtable

Community Lead, Data Scientists Network (DSN) Egbe

Sept 2022 – Present

- Co-organize data science and AI education campaigns, giving people without access a way into the field

Student Leader, Postman Student Community

June 2023 – June 2024

- Launched the #APILiteracyTour, onboarding student leaders across 24 campuses in Nigeria and Kenya who went on to run their own chapters; the network grew past 1,400 members

ENGINEERING & PRODUCTS

- **RC Hymns** (Google Play, Jun 2024): hymns app for a faith community, 5,000+ downloads. Expo, Firebase
- **Anony.ng** (Dec 2024): anonymous messaging app, 5.0 rating, 100+ downloads. Expo, Firebase
- **Akosori** (Feb 2026): Bible quiz app with real-time group play, 50+ downloads. Expo, Supabase
- **POS** (launching 2026): mobile POS that lets small businesses skip buying POS hardware. Expo, Supabase.
- **DiagnoChat**: AI medical-assistant prototype with React Native and the OpenAI API
- **GigsRepo**: community job-matching platform with React and Firebase

PROGRAM LEADERSHIP

Program Manager, Brave Redemptive

June 2024 – Present

- Run day-to-day operations of a software and design training hub, executing the director's strategy and leading the facility manager
- Delivered a fellowship cohort of 24 selected from 400+ applicants; 23 of 24 are now employed
- Delivered the Brave Fundamentals cohort: 25 graduates selected from 200+ applicants
- Built Google Sheets and AppScript automation for student reporting, finance and expenses, assignment grading, and form-calendar workflows
- Coordinated 30+ industry guest sessions

SPEAKING

TEDx Thomas Adewumi University (Nov 2023), "Unveiling the Economy of Studentship" · [Watch the talk](#)
